

Evacuation Sites in the Event of a Disaster

There are two types of evacuation shelters: Designated Emergency Evacuation Shelters and Designated Evacuation Shelters.

Designated Emergency Evacuation Shelter

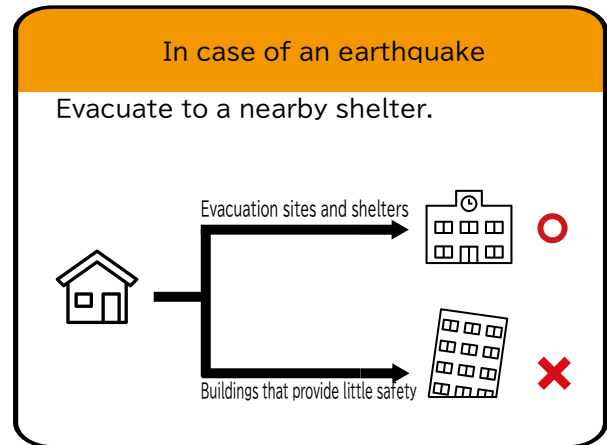

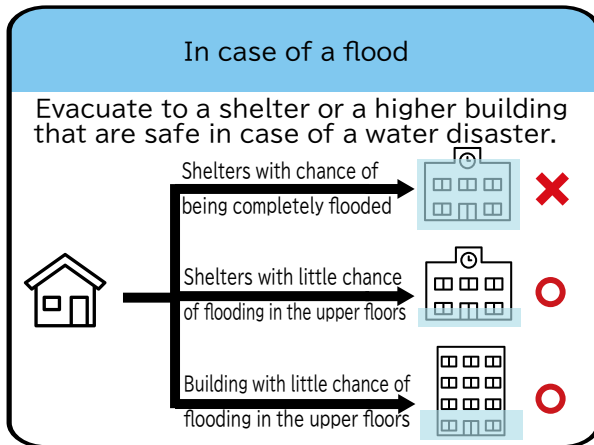

Designated Evacuation Shelter

Evacuation Shelters for People with Special Needs

Shelters for those with special needs who might find it difficult to live in a common evacuation shelter due to an illness or other health conditions.

Different Shelters for Flood and Earthquake

While living in an evacuation shelter

Help people to move

Help people in wheelchairs.

Inform people around you about the current situation of the disaster

Inform people with hearing impairments through writing or using smartphones.

Food Distribution

Help distribute meals.

Crime Prevention

Avoid going off by yourself and try to engage in group activities as much as possible.

Respect privacy

Be mindful of women, infants, and people with special health conditions in a shared space.

Infectious Disease Prevention

Wash your hands and gargle frequently.

Request for Sharing Space with Certain People

Consult with disaster relief staff to share a space with your family members or friends in case you need assistance.

Request for Additional Supplies

Tell disaster relief staff if you need additional daily essentials and supplies.

Share Your Concerns

Inform disaster relief staff if you need special assistance or have concerns regarding your current situation.

Use Toilets

Clean toilets in cooperation with others and keep them in a hygienic condition.

Follow Rules

Follow the rules to cohabitate with others peacefully.

Take Care of Pets

Pet owners must be responsible and take care of their pets.
